

SAKSHAM AGRAWAL

Director, PATH India Ltd.

1. Professional Introduction

Saksham Agrawal is a Director at PATH India Ltd. and a second-generation infrastructure entrepreneur. A Construction Engineering graduate from Purdue University (2014), he later completed the Family Business Management programme at ISB Hyderabad. Over the past decade he has been central to scaling and professionalising the group across its infrastructure and manufacturing verticals, with hands-on involvement in strategic bidding, project execution, and day-to-day operational leadership. During this period, the PATH group has scaled up significantly and diversified well beyond highway construction and toll operations into multiple sectors, establishing itself as one of the fastest-growing infrastructure companies in central India.

About PATH India Ltd.

PATH India Ltd., established in 1996, is a highway construction and toll operations group operating across 18 states, with an on-roll workforce of over 5,000 people and a group turnover of ₹4,000 crore. It is one of India's leading tolling agencies and the country's largest wayside amenity (highway rest-area) operator, with 39+ facilities across the country. The group's capabilities span highway construction, operation and maintenance, and BOT/HAM tolling, alongside manufacturing divisions in thermoplastic road-marking paint, crash barriers, and GFRP bars (glass-fibre rebar) as a substitute for steel. PATH has also entered defence manufacturing, developing loitering-munition ("kamikaze") drones and training simulators. The organisation is anchored by a firm commitment to quality and timely execution.

2. Current Designation & Organisation

Designation: Director

Organisation: PATH India Ltd.

3. Key Achievements & Recognitions

- Completed a 102 km World Bank-funded highway project in Gujarat.
- Delivered the Harda Bypass — Madhya Pradesh's only NHAI project completed within the stipulated timeline.
- Currently executing a 48 km four-lane highway construction project in Punjab.
- Developing PATH Logicity — a 400-acre multimodal logistics park near Bengaluru, India's largest integrated logistics hub, with six in-house railway sidings to promote intermodal transport.
- Skill development: partnering with colleges and ITIs in and around Indore, having trained over 6,000 students through on-site training.

4. Company Products & Services

PATH executes state-of-the-art projects across the following verticals, applying the latest technology in each:

- **Highway Construction** — EPC, HAM (Hybrid Annuity), BOT (Build-Operate-Transfer), and OMT (Operate-Maintain-Toll) projects.
- **Toll Operations** — 115+ toll plazas and 900+ toll lanes running on PATH's in-house Toll Management System.
- **PATH Recharge (Wayside Amenities)** — India's largest wayside amenity network, with 39+ facilities across the country.

- **PATH Logicity** — India's largest multimodal logistics park, under development near Bengaluru, with six in-house railway sidings for intermodal transport.
- **IT Solutions** — next-generation toll plaza design, AI image-processing (PIR) system, toll management software, central toll data-analytics system, and parking management system.
- **PATH Engineering** — metal beam crash barriers (W-Beam, Thrie-Beam, Modified Thrie-Beam, posts and spacers); GFRP (glass-fibre-reinforced polymer) rebars; and high-performance thermoplastic road-marking materials.
- **Defence** — design, development, and manufacture of loitering-munition (“kamikaze”) drones and defence training simulators.
- **Majhi Mumbai (ISPL)** — PATH's flagship franchise in the Indian Street Premier League (ISPL) T10 cricket league, co-owned by Shri Amitabh Bachchan.

Beyond Business

Saksham is a passionate tennis player, marathon runner, and licensed private pilot, an avid adventurer with a deep love for travel, and a strong advocate of disciplined fitness and high-performance living.
